## Unveiling natural beauty

**Segezha ClearPly**  
Plywood with a transparent  
and a semi-transparent coating

# Nature is the best designer

Segezha ClearPly is a high-quality plywood with a transparent coating that brings out the beauty of the natural birch veneer. Owing to its decorative properties, ClearPly is indispensable for creating light and minimalistic eco-style interiors. The natural wood texture looks perfect when used both in basic functional elements and in decorative ones. Segezha ClearPly plywood has been used effectively in furniture manufacturing, and it can be used for wall finishing in residential and commercial spaces.

## manufacturing

two industrial sites

## team

professional excellence and commitment of the team

## quality

state-of-the-art equipment, systems of ultrasound and optical scanning

we planted  
**12000** km<sup>2</sup>  
of forest  
within just **5** years

## certification

over 95% of our forest land has been certified according to the FSC® standard

## service

customized approach to each order; we offer cutting and CNC processing services based on the customer's specifications; worldwide delivery

## resources

we have our own sources of raw materials

# Specifications

Dimensions	1220 x 2440, 1250 x 2500 mm – 4 x 8 2440 x 1220, 2500 x 1250 mm – 8 x 4 1500 x 3000, 1525 x 3050 mm – 5 x 10 1220/1250 x 3000/3050 mm – 4 x 10 1500/1525 x 2400/2440/2500 mm – 5 x 8
Thickness	6 – 40 mm
Texture	Smooth
Colour, coating type, density	White, semi-transparent phenolic coating, 117 g/m <sup>2</sup> Transparent, melamine transparent coating, 120 g/m <sup>2</sup>
Formaldehyde emission class	E1
Glue category	Exterior, WBP

FPC confirmed  
according to EN 13986

**CARB**

Complies with the specifications 16.21.12-006-93222532-2019

## Even brighter!

Segezha ClearPly plywood is manufactured with two coating options: a transparent coating and a semi-transparent coating with an opal white tint.

**TRANSPARENT**  
A transparent and almost invisible protective film revealing the natural texture of the birch veneer.

**OPAL WHITE**  
A semi-transparent coating with a sheer white tint that visually brightens an interior.

## Created by Nature, improved by Segezha!

### Natural beauty

Segezha ClearPly high-quality plywood is coated with a varnish-like near-invisible protective film which unveils the natural texture of the wood instead of hiding it.

### Durability

The film is resistant to the effects from moisture and the sun rays; it does not change colour and is easy to wash.

### Simplicity

Segezha ClearPly plywood does not need any additional treatment; it is ready for use.

### Reliability/Robustness

The coating reliably protects the plywood against scratches and other damage.

### Stability

The plywood is manufactured from 100% birch veneer and is characterized by a high degree of strength, stability of its key parameters, enhanced moisture resistance and a unique surface texture.

### Individual approach

Cutting and CNC based on customized specifications and drawings.

### Responsibility/Sustainability

Our products are FSC® certified.
